

## Evaluation Summary

### 1. What were your expectations of the meeting?

5 Very effective/Excellent — 1 Not effective/Poor

AVERAGE

4.7

### 2. How well did the meeting meet your expectations?

5 Well exceeded expectations — 1 Did not meet expectations

AVERAGE

4.9

### 3. How would you rate the effectiveness of the following sessions?

5 Very effective — 1 Not effective

*Please let us know which speakers you found helpful, which less so, and any additional subjects we should have covered*

#### LECTURES:

AVERAGE

5.0

- “ Janey Sewell & Anele Waters x 2
- “ I would grade all the speakers with an “A” x 2
- “ Janey Sewell x 2
- “ All speakers were outstanding. I liked the fact they complemented each other. All topics were useful. It would be great to introduce a short lecture about Psychological support to patients; how to approach, talk to a patient, how to help them cope with the disease.
- “ Janey Sewell, Anele Waters. Could have covered psychological support to a patient.
- “ Anele Waters, Janey Sewell, James Hand x 6
- “ All the speakers were exceptional. Thank you for your effort and the time invested.
- “ All speakers are extraordinary; most presentations were helpful for nurses; a few presentations were more related to the work of doctors. More topics about the work of nurses in HIV departments.
- “ All the presentations are excellent. I learned something new and you refreshed my previous knowledge. Thank you.
- “ All speakers were excellent. Topics to be added include the nurses obligations in working with HIV positive persons and the possibility i.e determining what suggestions nurses are allowed/may give HIV positive people.
- “ All the speakers x 8
- “ Janey Sewell
- “ James Hand
- “ All the speakers presentations were very useful as well as Amina Heric’s presentation.

## WORKSHOPS:

AVERAGE

4.9

- “ Anele Waters x 2
- “ All the speakers were excellent x 9
- “ James Hand, Janey Sewell
- “ Janey Sewell, Anele Waters x 2
- “ James Hand & Anele Waters
- “ James Hand
- “ Janey Sewell x 2
- “ Some presentations were more for doctors more than nurses because they spoke therapy. Nurses do not determine therapy but administers therapy.
- “ Janey Sewell & Anele Waters. Local host presentation. Local HIV and Hepatitis situations.

## CASE PRESENTATIONS:

AVERAGE

4.8

- “ My previous knowledge in this area was superficial. This education enriched my knowledge.
- “ Janey Sewell x 3
- “ Janey Sewell, Anele Waters, James Hand x 5
- “ All speakers were great x 3
- “ All speakers were great. No additional topics as everything was covered.
- “ My experience with HIV positive patients is rare. This was very useful.
- “ Janey Sewell. Additional topic could be ways to prevent conscious transmission and disclosure about HIV status.
- “ All speakers were excellent. It would be advisable to practically present cases or possibly presented cases from practice.
- “ James Hand
- “ Add more examples of personal experience of patients.
- “ If possible, bring more patients to share their experience with us. All speakers were excellent

## 4. How will this meeting help you in your day-to-day work? (comments only)

- “ This training helped me a lot. We nurses do not know a lot because doctors keep control over everything. Nurses are poorly involved in congresses and trainings.
- “ It will help me in my work to a great extent because it was very helpful.
- “ Very successful training.
- “ Very helpful x 15
- “ Thank you for this training, it was great. I didn't know some things and some things were not clear, but now everything is clearer.
- “ This training will be useful in my day to day work because I got new knowledge from the speakers.
- “ Very useful for my future work and getting new experiences.
- “ Very helpful because I will keep revising what I learnt here.
- “ This training would be very helpful because I am in everyday contact with positive persons.
- “ Very useful, however i think the nurses locally don't have such competence in the work with patients, meaning communication, suggestions, etc.
- “ It will help me in my day to day work, I get to know the facts about HIV infected patients.
- “ Very useful as we are dealing with infectious disease patients on a regular basis.
- “ I got a lot of helpful information & knowledge which i will be able to use daily.
- “ I don't have much contact with these patients but this training will help me a lot.

## 5. What is your overall assessment of the meeting?

5 Very effective/Excellent — 1 Not effective/Poor

AVERAGE  
**5.0**

- “ Very useful. We need more training like this because at one place we found out many things useful for our work.
- “ All compliments x 2
- “ Very enlightening x 2
- “ The training is excellent and I am very pleased with the speakers presentations.
- “ Very useful. We need more educations like this.
- “ Every training is helpful, it's good to gain new knowledge.
- “ We saw how much nurses are involved in work in HIV patients. In the future we would like to work similar to them and have competence like our colleagues.
- “ Excellent x 2
- “ Training was very useful and hope to establish cooperation with you in the future.
- “ It was great to have interaction between speakers and attendees.
- “ Helpful training. I wish we had trainings like this more often.
- “ Perfect!
- “ Everything is good.
- “ Excellent & very helpful x 3
- “ Only words of praise and satisfaction from being involved.

## 6. Please give suggestions for how future meetings might meet your training needs *(comments only)*

- “ Keep up the good work and make progress as much as possible. Good luck!
- “ The nurses roles in treatments of patients suffering from other diseases x 4
- “ Everything we heard was helpful.
- “ An introduction to the HIV treatment; the nurses role and skills needed.
- “ Talk more about hepatitis; in the end hand out brochures about presentations.
- “ All the topics are very good.
- “ Description of one working day of nurse at the clinic.
- “ To enable nurses working with HIV patients to work on the department, so that both nurses and patients are pleased.
- “ More topics to be added on the work of nurses with HIV positive persons. Some presentations seemed more related to the work of doctors.
- “ More topics concerning the work of nurses, their tasks and care exclusively performed by nurses.
- “ The presentations were comprehensive, very successful. I don't have any complaints. All elements were included.
- “ All infectious & sexually transmitted diseases.
- “ Psychological support to patients suffering from Hepatitis B & C.
- “ Stigma affecting people living with HIV and Hepatitis. Discussions about this topic are always welcome.
- “ Everything that could improve the work of nurses x 2
- “ Talk and educate medical workers about protection at work (working with/handling infectious material, approach towards patients with infectious diseases)
