LECTURES:

AVERAGE

5.0

- “ All sessions were useful. The more sessions the better for us as we have the chance to learn new things.
- “ All presentations were very good and nicely displayed.
- “ Lectures. All interventions were useful.
- “ Sarah Dermont’s lectures were useful. Themby Moyo’s and David Steiner’s were very well synthesized and touched critical aspects.
- “ Sarah Dermont’s lectures were useful. Themby Moyo’s and David Steiner’s were very well synthesized and touched critical aspects.
- “ I liked every single intervention and presentation. I enjoyed very much to receive your experience. I’m in my very beginning in this profession, so I’ll think and send you via e-mail the subject(s) in which I would like to know more
- “ All lecturers had very useful presentations, I didn’t find any presentation as not effective, all were very good.
- “ Useful interventions.
- “ David Steiner= very effective
- “ All were useful. X 17
- “ Yes, very much.
- “ Sarah Dermont- useful intervention- the case presentation of the HIV pregnant woman. Breastfeeding in HIV pregnant women is something new for Romania.
- “ Not the case for ineffective
- “ They were all effective, especially Sarah Dermont’s, Themby Moyo’s and David Steiner’s.
- “ Themby Moyo, David Steiner, Alina Braticevici, Elena Ianosik- they all had very effective presentations.
- “ Very effective- David Steiner, Themby Moyo, Sarah Dermont
- “ Most effective- David Steiner.
- “ All lecturers had interesting lectures from where I learned a lot. They made me think more on the cares provided to HIV patients.
- “ All lectures had a strong impact and transmitted new information. I especially liked Themby Moyo and Joyce Banga.
- “ Sarah Dermont- most effective. There were no inefficient lectures.
- “ The best- David Steiner, Late detection, opportunistic infections.
- “ Sarah Dermont- the best
- “ David Steiner and Themby Moyo- the most effective lectures
- “ All the presentations of the UK team were very effective.
- “ All lectures were very effective. I particularly appreciated Sarah Dermont’s lectures as they approached a large number of subjects (also considering that the time was rather short).
- “ Very effective. David Steiner, Themby Moyo, Sarah Dermont, Joyce Banga
- “ Alina Braticevici- very effective. All lectures were very good.

4. How will this meeting help you in your day-to-day work? (comments only)

- “ Improved professional quality
- “ Considering that I work in the laboratory I will try to release the results for HIV patients in the shortest time possible.
- “ - I've heard so many interesting things and I hope that one day we'll be able to adopt the methods presented here.
- “ Approaching HIV patients from the psychological standpoint
- “ From all possibly related perspectives.
- “ Continuous updates of our knowledge which is essential in our profession.
- “ It enriched the approach strategies for patients and the way to deal with their problems.
- “ More promotion on cares provided to HIV patients to our colleagues from different specialties.
- “ Many useful information that I will use in my activity with HIV patients.
- “ Too little time. Every presentation was useful.
- “ Improving our knowledge. Profound approach of the patients' problems.
- “ I will use the information in my daily professional activities.
- “ I feel more motivated.
- “ We will try to focus even more on our patient, provided the time allows us to.
- “ New things that I've learned and will put into practice
- “ All information received will be useful in my daily activity at the hospital.
- “ This experience exchange should be repeated in every hospital in Romania.
- “ It will help me very much.
- “ Improving our knowledge, improving the communication with our patients.
- “ I learned new ways of collaborating with our patients so that they stay adherent to treatment.
- “ Constructive meeting. New information on HIV/AIDS patients and their specific cares.
- “ We received new information x 4
- “ I improved my knowledge
- “ All the information received will definitely help me.
- “ The information exchange is very beneficial for our patients' care.
- “ They will help with health education, nursing, students teaching.
- “ I will try to help my patients and support them more.
- “ I improved my knowledge and will apply what I've learned
- “ Interesting case presentations, experienced lecturers.
- “ Although I don't work on a clinical ward for HIV patients, this meeting made me realize how important it is to understand the patients' needs and show them the proper support.
- “ All information will be useful in my activity
- “ Improved knowledge. Profound approach of patients' problems
- “ Different approach of the patient and the relationship with the patient.
- “ To a great extension, the information I received created a new perspective for caring of HIV patients.
- “ It will help me in my professional development as a nurse providing cares to HIV patients.
- “ I'll try to understand better my patients and be closer to them.
- “ It will help me a lot.
- “ We'll try to apply what we've learned using our resources
- “ We'll work more on the relation with the physicians, social workers, psychologists in order to improve our patients' care.
- “ To be more receptive to our patients' needs.
- “ More open to our patients' voice.
- “ The experience exchange and accumulated knowledge will help us much
- “ It helps me consider HIV/AIDS infection from a different perspective than I used to.
- “ More receptive to our patients' needs.
- “ These meetings provide us with more self confidence in our daily efforts
