3. Please let us know which speakers you found helpful, which less so, and any additional subjects we should have covered

- “ They were all great! x 24
- “ I most enjoyed the presentation regarding the HIV pregnant woman (Perinatal management for women living with HIV). Something quite new to me- the menopause presentation.
- “ The most useful presentation- the one concerning menopause.
- “ All the presentations were useful and I’m looking forward to put into practice what I’ve learned.
- “ Suggest covering: HIV infection and dental medicine.
- “ All lectures managed to catch my attention by the abundance of information, the way information was delivered and by opening new channels of communication.
- “ All lecturers were very well prepared and the information they shared were also very good and educational. I would like to thank Sophia for her courage whom I will give as example to my patients.
- “ All lectures were captivating and educational, both in terms of extra-hospital life and hospital life. Many thanks for your efforts!
- “ Jane, Becky, Janey, Anette
- “ I cannot make a difference between the lectures, as they all brought information that will help me more in my daily practice. I’ve clarified and answered a lot of questions regarding HIV patients due to this event. Thank you!
- “ All lecturers were useful especially for junior nurses. I receive important information that help me get to know my patients better.
- “ The lectures on menopause and perinatal cares- the best. All the other lectures were also very interesting.

4. How will this meeting help you in your day-to-day work? (comments only)

- “ I gained empathy and perspective x 4
- “ It helps to complete my knowledge in order to provide a better care to my patients.
- “ To allow and find more time for the discussions with our patients.
- “ . I never thought that menopause can affect in such a great manner women with HIV.
- “ We should be more open in our dialogues with our patients.
- “ I will share with my colleagues the information learned for an improved communication and management of our patients x 2
- “ Good organizing. Assessment of the newly detected patient.
- “ Good organizing. With the support of the physicians to review monitoring guidelines so as to include the strategies discussed.
- “ New information, experience exchange.
- “ I learned many new things on ART and I'm looking forward to sharing them with my patients.
- “ We'll try to go in the depth of the discussions we carry with our patients, of course within limits of the available time per patient.
- “ The meeting will help me in my personal development as I will try to be more attentive and open to my patients' emotional states.
- “ . It adds a plus in our medical practice x 2
- “ I will try to lay more emphasis on the emotional support of my patients.
- “ Both the meeting as well as our colleagues' from UK approach will help me to enlarge my horizons when caring for my patients. Also, I will try to look holistically at the cares of my patients.
- “ Stigma should not be present for any patient-, irrespective of their condition.
- “ It will help me as I and my colleagues can show more understanding and could be more empathetic towards our patients. I have gained lots of new knowledge
- “ I will provide more information to my patients! X 2
- “ It helps as it gives us the tools to communicate better with our patients and to share the information with our colleagues.
- “ It helped me understand the emotional needs of our HIV patients.
- “ More approachable manner with our patients.
- “ Due to the information on the approach of the HIV patients we will manage our relationships with our patients better and will also improve our cares.
- “ It helps me to be closer to my patients and offer them an optimal support.
- “ To be able to solve both the problems of our patients as well as our staff's.
- “ Any lesson is a step forward.
- “ Access to new information. To revise the diagnostic protocols. X 2
- “ These events are an occasion for us to interact with our colleagues from the same specialty, to find out new things and to put them into practice.
- “ This is an experience exchange between colleagues from different environments which helps us a lot.

- “ I will try to approach differently the problems of my patients.
- “ By a more in-depth understating of the issues women with HIV face: from stigma, birth to menopause. I will try to improve my approach towards my patients, due to the knowledge I accumulated.
- “ The meeting emphasized aspects and information that can be applied within our medical practice (enhanced communication with our patients).

5. What is your overall assessment of the meeting?

5 Very effective/Excellent — 1 Not effective/Poor

AVERAGE
5.0

- “ - More such meetings x 2
- “ Very well.
- “ I gained more knowledge that I hope I'll be able to apply in our HIV center with the support of all vectors involved in the management of HIV.
- “ I enjoyed all lectures; interesting materials
- “ Well structured lectures, simple and synthesized.
- “ Experience exchange with other HIV Regional Centers in our country.
- “ Very useful information. The way they were exposed and explained.
- “ I discovered a team of professionals.
- “ I am grateful to have participated for a second time to such a meeting.
- “ We should have the possibility to participate more often to such events due to the abundance of information very useful for our patients' health and our own health.
- “ I gave a 5 as I feel that we need these meetings more often as we have the chance to learn new things from more experienced colleagues.
- “ I gave a 5 as I feel that we need these meetings more often as we have the chance to learn new things from more experienced colleagues.
- “ Any new information is welcomed. Congratulations!
- “ I love the meeting as I learned so many new things that I will apply within my daily practice.
- “ No suggestions. I was honored to participate to this event, where all lectures were extremely professional. Thank you!
- “ Both the team and lectures were wonderful and drew my attention. I'd live to participate at more such events.
- “ An interactive and interesting meeting
- “ I had the chance to find out that the protocols used by our colleagues in UK re almost similar to the ones we use in Romania.
- “ A relaxed atmosphere and an effective experience exchange.

6. Please give suggestions for how future meetings might meet your training needs (comments only)

- “ - More junior nurses to be present at these meetings. Shorter- the “Menopuse” presentation.
- “ More case presentations. Experience exchange- more beneficial
- “ A larger experience exchange- somewhere around a week would be beneficial (for us to travel to other countries and see how they manage their patients).
- “ We need more events like this one. More practical observations which would help us to improve our activity on our wards. -
- “ Maybe invite a few HIV patients to share their experience regarding the difficulties they face and the interaction with the medical service- consults, investigations, treatment.
- “ More experience exchange- very beneficial to our patients x 2
- “ Information makes everyone stronger so a physical experience exchange would be more than welcomed.
- “ Managing “limit” situations with patients who use drugs, non-adherent patients and social cases- specific for our country and our part of Europe.
- “ Suggestion- organize these meetings in other Regional HIV Centers in our country, as well. Also, maybe at future events our patients will also be able to join us.
- “ My activity also depends on the funding the Ministries grant us. Of course discussions with my patients would improve if funding was available for more staff and more facilities...If I could I would like to invite you to carry such a workshop at the hospital I work at “Victor Babes” in Bucharest.
- “ Approach of unwilling patients (drug consumers, people coming from unstable homes)- ways to communicate with them
- “ More interdisciplinary audience (more nurses from different specialties should be present at such events).
- “ More case presentations with patients admitted on wards.
- “ More meeting more often. X7
- “ Training of junior nurses especially in terms of empathy towards their patients.
- “ Any discussion is more than welcomed
- “ Continuous medical education- the golden standard for our training and practice. The most important beneficiary- the patient.
- “ Any approached theme represents an interest for us and they are more than beneficial for our medical practice.
- “ More case presentations, with evolution on longer period of time- how did you manage the problems occurred during this time?
